

The My Film Story experience is an artistic and reflective process designed to capture your life and wisdom within a short film or in an audio recording. We work with you to bring out and capture your history, your personality and your perspective on life. These are what makes us all special and individuals. We are all unique and have contributed in our own ways or have experienced something life-changing or significant that we might want to record for ourselves or our family. The My Film Story experience enables you to do that.

An obvious question is, how does the My Film Story team do it? You can appreciate it's impossible to capture all your experiences in a film or audio recording. The My Film Story process is designed to identify and capture the pivot points of your life, the special relationships and your personal interpretation of the world. These are the things that make you who you are and a special friend, spouse, sibling, parent, grandparent or global citizen. We want to work with you to capture who you are and have something you and your family can keep forever and be proud of.

The My Film Story experience is:

1. Contacting us and having a conversation.
2. Selecting a package, agreeing to the Terms and Conditions and paying a deposit.
3. Completing the mapping tools and recording your story.
4. Editing
5. Delivery of the final product after final payment.

We aim to make the experience as much fun and as memorable as possible. Naturally, as we step through your film story, there will be moments of laughter and seriousness because that's life. The My Film Story team works directly with you, assisting and reassuring you to produce something that creatively captures your personality and worldview.

An important point to reinforce is the film and audio recording is made for you or your family, not for public audiences. The My Film Story team does not release them publicly and maintains strict confidentiality. Once we've agreed on a final version of the film or the audio recording, the My Film Story team gives them to you, and you decide who sees or hears it and how it's shared. The final product is designed with you and guided by your life experiences and wisdom. The My Film Story team helps you to tell your story; it's as simple and as complicated as that.

If you need more information or want to know more details about the process, we encourage you to contact us www.myfilmstory.com.au where we can answer your questions and discuss what works best for you. We tailor make the audio or film to suit your needs or limitations.

We all have a story to tell, let us help you tell yours.

The My Film Story team.
